

Experience of revitalization of mining industry facilities 1990-2026

1990-2026年采矿业设施振兴经验

讲座专家： Professor Tatyana Yuryevna Bestrova (贝斯特罗娃·塔季扬娜·尤里耶芙娜)

Ural Federal University (乌拉尔联邦大学)

时 间： 7月7号 下午 15:30-17:00

地 点： 南湖校区矿业科学中心A200

承办单位： 中国矿业大学安全工程学院 **联系人：** 辛海会教授

Professor Tatyana Yuryevna Bestrova (贝斯特罗娃·塔季扬娜·尤里耶芙娜)
Ural Federal University named after the First President of Russia B.N. Yeltsin
(以俄罗斯首任总统叶利钦命名的乌拉尔联邦大学)

Introduction: Tatyana Yuryevna Bestrova, PhD in Philosophy and Professor, is currently a Professor in the Department of Design at Ural Federal University in Russia, whilst also serving as Chief Researcher at the Ural Engineering Design Institute under the Russian Ministry of Construction. She has long been engaged in research into the regeneration of resource-based cities and sustainable design. In recent years, she has led 15 research projects for the Russian Academy of Architecture and Construction, focusing on the ecological restoration of cities affected by resource depletion and green, low-carbon design. She has published over 390 academic papers and more than 20 monographs, textbooks and translated works.
